

# BITNEURONS EXPLAINED

Discover Bitneuron Token - The Lifeblood of  
the BrainTensor API Ecosystem

# Tokenomics:

## **Total Supply:**

100 billion (inspired by the estimated maximum number of neurons in the human brain)

- 7% allocated to FirstTensor delegators.
- 10% listing liquidity.
- 20% designated for staking rewards.
- 28% distributed to FT Neuron Holders.
- 35% allocated for rewards to FirstStudio.AI platform users, based on their activity and contributions to the ecosystem.

+

# Token Distribution Phases

## **Phase 1:**

Internal Token Daily Token Generation for FT Neuron Holders and FirstTensor Delegators over 100 weeks started from 1st December 2023.

- 10 million tokens are actively generated each day by FirstTensor TAO delegators based on their TAO delegated amount / dominance to the FirstTensor Validator.
- 30 million tokens are actively generated each day by FT Neuron Holders based on the number of FT Neurons they own.

During Phase 1, all Bitneuron tokens will remain internal within the FirstTensor ecosystem, and they will not be transferable at this time.

## **Phase 2:**

Deployment of the Bitneuron Smart Contract.

## **Phase 3:**

The wallets addresses association (between Bittensor wallet address and ERC20 wallet address).

## How it will work:

FirstTensor Validator will launch its API, called BrainTensor. Through this, developers will be able to access the Bittensor network intelligence and build their tools.

**Free Unlimited Access:** Developers opting for this will need to integrate Bitneuron into their projects. To qualify, they must submit their product concept on the BrainTensor website, explaining how it will enhance the utility of the Bitneuron token. If the community votes in favor of the project, it will be granted complimentary API access.

**Paid Access:** In this model, FirstTensor will allocate 70% of the profits derived from selling BrainTensor API access to buy and burn Bitneuron Tokens.

# Introducing the pioneering platforms powered by the BrainTensor API that will adopt Bitneuron Token

## **FirstAds:**

The first decentralized and incentivized advertising tool. Here, you can engage hundreds of influencers to drive traffic to your campaigns, revolutionizing how you reach your audience.

## **FirstStudio.AI:**

An AI-driven studio that allows you to unleash your creativity and monetize your ideas through Bitneuron Tokens.

## Token Utility

- Bitneuron token will empower the entire economy of multiple products developed via BrainTensor API and incentivize users to embrace and contribute to the FirstTensor ecosystem's expansion.
- All the tools built through BrainTensor (FirstTensor API) will have a deflationary impact on Bitneuron tokens supply and will increase the token's utility.

## How to generate Bitneuron tokens

- Acquiring FT Neurons.
- Delegating TAO to FirstTensor Validator.
- Being one of the top FirstStudio.AI creators.
